A career in Apartment Maintenance is a portable career that offers challenges and opportunities to make a positive difference in the lives of your residents, and every day is different!

The Texas Apartment Association Education Foundation, National Apartment Association Education Institute and El Paso Apartment Association have teamed up to provide those transitioning out of service, military veterans and military spouses with free training to earn a Certificate for Apartment Maintenance Technicians.

The training consists of a blend of self-paced online learning and hands-on maintenance training. You will receive the skill training needed to start a career in apartment maintenance. With a great attitude and a willingness to learn new skills, you'll be on a career path with unlimited potential.

The compensation is competitive, there’s ample room for advancement, and it’s a career you can take anywhere in the country. Typical benefits may include: health care (medical, dental, and vision); paid holidays, vacation and sick leave; and 401K options, life insurance and more.

Training takes place over two sessions with online learning completed in between.

NEW DATES! SEPTEMBER 10-13 & 17-20
WESTERN TECHNICAL COLLEGE, EL PASO, TX

Classes run from 8 a.m. to 4:30 p.m.

Between the classroom trainings there are online training modules (approximately 4.5 hours) done on your own time. Once both classroom sessions and the online training is complete, you will take an online exam. Upon passing, you will earn a provisional certificate until you’ve completed one-year of experience in the apartment industry, after which you’ll have your Certificate for Apartment Maintenance Technician (CAMT).

At the end of the course, TAAEF will provide opportunities for participants to connect with potential apartment industry employers.
YOUR CAREER STARTS HERE

Only 25 spots available. Register now!

Maintenance expenses are the single largest controllable element in any operating budget. This course is designed as an introduction for new maintenance professionals, to give these professionals the knowledge and tools necessary to run an effective maintenance program.

Attendees will learn the ins and outs of the apartment business, the maintenance and repair of electrical systems and plumbing systems, Heating, Ventilation and Air conditioning (HVAC) maintenance and repair, appliance maintenance and repair, and interior and exterior maintenance.

CAMT is the only Apartment Maintenance program to be nationally accredited by the American National Standards Institute (ANSI).

The program offers a combination of non-technical and technical courses, specifically designed for apartment maintenance professionals to meet the needs of today’s apartment industry employers. The course includes online course work with in-classroom and hands-on study.

Fill out the form below and email to becca@taa.org or fax to 512/479-6291.
