EPA-608 Universal Certification Course

16 Hour Training Course
11 hours of theory, 3 hours of hands-on training & 2 hours exam testing

This course is intended to satisfy EPA requirements for an approved level of instruction in the area of environmental protection.

The instructional portion will prepare attendees with the knowledge necessary to pass the Federal EPA-608 Universal Exam covering the following:

**Core**: Laws, fines, & requirements

**Type I**: Small Appliances
(any sealed system with <5 lbs. of refrigerant)

**Type II**: All high pressure systems except small appliances

**Type III**: Low pressure chillers

This certification is required by law for anyone who works on HVAC systems and/or buys or handles refrigerant.

Courses being offered at Western Technical College
